**JOINT SUPPORT**

## Flexadin® Advanced with UC-II®

Recommended to support optimal joint health and mobility in horses. Contains UC-II® undenatured type II collagen and Methylsulfonylmethane (MSM).

- Unique oral tolerization from UC-II®.
- Helps maintain joint mobility and flexibility.
- Helps support the structural integrity of joints.
- Helps reduce occasional soreness and stiffness in the joint.

#445098	Oral Powder - 600 g Canister
---------	------------------------------

**JOINT SUPPORT**

## NexHA™ (hyaluronate sodium) Injectable Solution

FDA-approved product for treatment of joint dysfunction of the carpus or fetlock in horses due to non-infectious synovitis associated with equine osteoarthritis.<sup>1</sup>

- FDA-approved generic bioequivalent to Legend®.
- Priced affordably.
- Produced by bacteria, therefore has low protein content with no potential contamination with materials of animal origin.
- Each mL contains 10mg of Hyaluronate Sodium.
- Low molecular weight, 300 kD<sup>2</sup>.
- Sold through veterinary distribution.

#439313	4mL Vial - 1 Box (12 vials)
---------	-----------------------------

**IMPORTANT SAFETY INFORMATION:** The safety of NexHA™ has not been evaluated in breeding stallions or in breeding, pregnant, or lactating mares. The following adverse reactions have been reported following intravenous use of NexHA Injectable Solution: occasional depression, lethargy, and fever. NexHA is approved only for intravenous injection. For prescribing information: [www.vetoquinolusa.com/nexha-info](http://www.vetoquinolusa.com/nexha-info)

**IMMUNE SUPPORT**

**EPIC® Daily**

Supports the immune system, respiratory tract and gastrointestinal health of horses in one highly palatable and easy to use supplement. Ideal supplement for horses undergoing environmental stress associated with the demands of training, transport, performance, or a new environment.

**#439301** Oral Powder - 2 kg Bucket

**BEHAVIOR**

**Zylkene® Equine**

Recommended to help manage the effects of environmental and situational stress and support balanced behavior. Contains hydrolyzed milk protein (bovine) providing alpha-casozepine.

**#439334** Oral Powder - 8 g Pkt. (20 ct)

**DERMATOLOGY**

**Phovia Lamp System and Gel Pack**

A fluorescent light therapy system

- Fluorescent light energy reaches deeper skin layers to stimulate cell regeneration.
- Better compliance, weekly in-clinic applications.
- Supports skin health and regeneration.
- Quick administration by vet nurses and techs provides an additional revenue stream for the business.

**#462467** Phovia Lamp System

**#1003333** Phovia Gel Kit

## ANTI-INFLAMMATORY

### Butequine™ (phenylbutazone) Paste for Horses

FDA-approved product for relief from inflammatory pain and discomfort associated with the musculoskeletal system.

- The only FDA-approved generic bioequivalent to the original Phenylzone® Paste
- FDA-approved drug provides assurance when withhold intervals are required for competition
- Each syringe contains 20 g phenylbutazone with apple flavor
- Easy-to-dose adjustable ring on the syringe plunger

#439185	1 Syringe
---------	-----------

**IMPORTANT SAFETY INFORMATION:** Butequine™ (phenylbutazone) Paste is indicated for the relief of inflammatory conditions associated with the musculoskeletal system in horses. **CAUTION:** Federal (U.S.A.) law restricts this drug to use by or on the order of a licensed veterinarian. **WARNING:** Do not use in horses intended for human consumption. **PRECAUTIONS:** Butequine is approved only for oral administration. Stop medication at the first sign of gastrointestinal upset, jaundice, or blood dyscrasia. For full prescribing information, visit [www.vetoquinolusa.com/butequine-info](http://www.vetoquinolusa.com/butequine-info)

● YEAST/ BACTERIA	Annular areas of peripherally expanding alopecia, scale, crust and follicular papules & pustules	BPO-3™ Shampoo Sebozole™ Shampoo Universal Medicated Shampoo
● ANTIFUNGAL	Coat looks and feels greasy; moderate pruritus	Sebozole™ Shampoo Universal Medicated Shampoo

# BOVINE REPRODUCTION

## REPRODUCTION

### FOLLTROPIN®

Porcine Pituitary-Derived Follicle Stimulating Hormone for Injection

For induction of superovulation in beef and dairy heifers and cows.

<b>#439315</b>	Injectable Solution & Diluent <ul style="list-style-type: none"><li>• One 20 mL vial containing 700 IU FSH as a lyophilized powder</li><li>• One 20 mL diluent vial containing Bacteriostatic Sodium Chloride</li></ul>
<b>#443748</b>	Dual Pack - Injectable Solution <ul style="list-style-type: none"><li>• Two 20 mL vials containing 700 IU FSH as a lyophilized powder</li></ul>

**IMPORTANT SAFETY INFORMATION:** FOLLTROPIN® (porcine pituitary-derived follicle stimulating hormone for injection) is indicated for the induction of superovulation in beef and dairy heifers and cows. It is not for use in male cattle or reproductively immature heifers because safety and effectiveness have not been tested. Do not use FOLLTROPIN® in cows that are known to be hypersensitive to the active ingredient, porcine pituitary-derived follicle stimulating hormone. Do not use in pregnant cattle. Following superovulation, a delayed return to heat is possible. Use of this product has been associated with a low incidence of hypersensitivity or anaphylactic reactions. Human Safety Warning: Not for use in humans. Care should be taken when handling the product to avoid accidental self-injection. Seek medical attention immediately if this occurs. Folltropin is approved by the FDA. For the full product information, visit; [www.vetoquinolusa.com/folltropin-info](http://www.vetoquinolusa.com/folltropin-info)

## Newborn Calf

Nutritional supplement for colostrum-deprived and environment-challenged calves within 12 hours of birth.

#439189	Oral Paste - 42 mL Syringe
---------	----------------------------

## Calf Electrolyte

- Electrolyte replenisher to help calves maintain normal concentration of minerals
- Scientifically formulated for hydration, energy, and to replace lost electrolytes
- Ideal sodium content and osmolality to support optimal GI hydration
- Superior buffering agent allows calf to receive milk or milk replacer

#442055	Oral Powder - 5 lb Bucket
---------	---------------------------

#1002762	Oral Powder - 2 lb Bucket
----------	---------------------------

## Calf Defense

- Specifically formulated for calves
- Supports calves normal health
- Supports healthy bacteria in intestinal tract
- Targeted for GI support

#442057	Oral Powder - 2.2 lb Bucket
---------	-----------------------------
